The Tallahassee Garden Club - Who are We?

The Tallahassee Garden Club, Inc., established in 1926, has a rich tradition of community involvement. From its first Plant Exchange in 1931 which traveled through neighborhoods in ox drawn carts, to the monthly Plant Exchange of today, the Club's more than 500 members sponsor and support numerous programs that enrich the city in countless ways.

Divided into 21 Circles comprised of between 12 and 60 members, each Circle meets monthly and presents a wide range of educational programs. Topics include the latest gardening techniques, organic gardening, creating water features, conservation and environmental education and pollinator studies.

Consider becoming a member of this ever growing organization. You will become friends with a welcoming group of local planters, designers, educators, conservationists, environmentalists and leaders. More far reaching than that, your membership makes you a member of the Florida Federation of Garden Clubs, Inc., Deep South Region and the National Garden Club, Inc. Through these organizations, you have an opportunity to attend numerous workshops held throughout the state.
